GRESHAM

MIRAGE TREES

PRODUCT DATA SPECIFICATION

Inspired by the surrounding nature, our class A sound absorbing tree shaped panelled screens are perfect for any environment.

Introduction

When put together, the panels take on the shape of a forest: made even more realistic and evocative by the fact that the panels can be chosen in the typical colours of the leaves in spring, summer and autumn. Putting several panels together allows them to be used as a partition wall, to divide up - even on a temporary basis - work areas or dining areas, or to create genuinely private spaces in order to create small lounges or meeting rooms.

Featuring an elegant design, a highly practical dividing function.

Features

- Class A Sound Absorption
- Complies with UNI EN ISO 354 and UNI EN ISO 11654
- Trevira CS Standard 100 Oeko-Tex certified fabric available in 4 colours
- Support Frame available in Oak
