

# Freedom

Product Brochure

# Freedom

Freedom's core functionality is exactly as the name suggests, a flexible media wall which gives workers the freedom to divide the office into smaller areas, whilst providing vertical workspace options. The front of the unit includes a monitor bracket as well as multiple power points: five metre mains lead, HDMI link socket, dual USB and UK socket to fascia. The back of the media panel can be specified to include an optional dry-wipe board which promotes spontaneous and collaborative working.
