

Glenstal Foods

M2 Office were chosen by Glenstal Foods as they were looking for a supplier who could manage all aspects of the project from Design Concept to completion.

BACKGROUND

They needed the upgrade to include all aspects of Interior Design from electrical works, Lighting, Cable Management and flooring.

ABOUT THE PROJECT

The project encompasses a spacious workspace outfitted with ergonomic furnishings and a ground-floor boardroom featuring a branded glass panel solution.

M2 Office Interiors' flooring layout ingeniously integrates the natural beauty surrounding the building into the office interior, fostering a seamless connection with the outdoors.

RESULTS

M2 Office successfully completed this project within the budget and timeframe given. The office space has now been Future proofed by advising them on the best products available to help improve employee wellbeing and ergonomics.

Glenstal Foods

“I would have no hesitation in recommending M2 Office Interiors for any company who need support & good design in upgrading their current space. We feel like we have a whole new office without having the expense or stress of moving to brand new premises.”
