

# Modular Automation

Modular Automation are global leaders in automation solutions for advanced manufacturers worldwide.

## BACKGROUND

They are an ever-evolving entity and required extra space for 100 new employees. Along with expansion, space management and refurbishment of the facility was required.

## ABOUT THE PROJECT

Modular Automation practices collaborative working and came to M2 Office Interiors with an open plan office requirement focusing on teamwork with optional meeting rooms, hangout areas and acoustic pods - which provide much needed private spaces within the open office environment.

## RESULTS

Modular automation is now a modern stylish office encouraging collaborative and agile working practices.
