

# Impact Trade Union

Impact trade union is a government office in Limerick City. M2 Office Interiors were thrilled to be a part of the redesign of their office interiors.

## BACKGROUND

This project's main challenge was an extremely short turn-around time. Multiple suppliers were involved meaning the organization and logistics were micro managed by M2 Office Interiors. The project included; executive office furniture, Reception soft seating and break out areas. Meeting room. Large training room with stackable chairs and folding tables. Boardroom for 30 persons.

## ABOUT THE PROJECT

In the reception area, M2 Offices introduced soft seating with muted colors, creating a serene and tranquil ambiance. Upstairs, a stunning boardroom table, complemented by cream leather seats, was carefully selected to harmonize with the wooden ceiling beams, ensuring a cohesive and elegant design throughout the space.

## RESULTS

This project was finished within the timeframe and budget given. A modern, fresh working space with high quality products was delivered.
