

sedus

se:vision

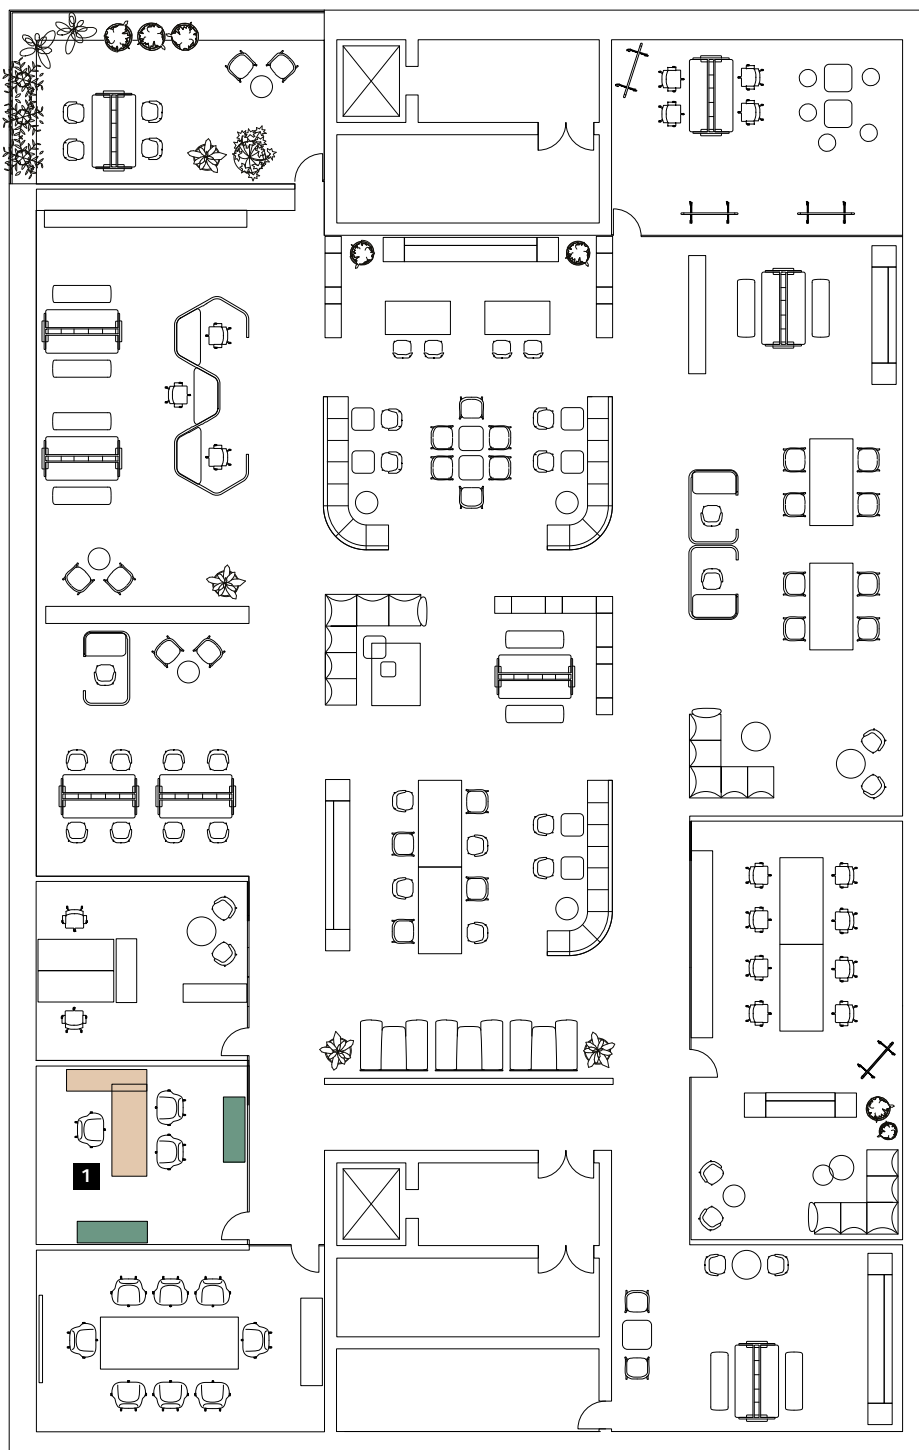

Modern design with a focus on quality and style

With se:vision, Sedus unites the demands of value, design and functionality in a unique concept that redefines the manager's workplace. As a harmonious combination of desk and storage space, se:vision desk & se:vision storage form a unit that is not only representative but also functional. This product concept pays directly into Sedus' premium segment by combining the highest quality of workmanship, attention to detail and a variety of designs. Whether free-standing or with integrated storage space, se:vision desk offers flexibility and enables workstations that can be designed to be classic and elegant or modern and inviting. Complemented by se:vision storage, a consistent design concept is created that not only offers space for efficient organisation, but also impresses through high-quality materials such as Fenix surfaces, delicate edges and elegant colours. In this way, se:vision reflects the aspiration to create workstations for modern managers that radiate status, personality and style – perfectly aligned with individual needs and corporate identity.

Application areas

- 1** Management workstations

se:vision

● se:vision desk

High-quality individual desk in a purist design, the se:vision desk is characterised by its precise workmanship. It fulfils even the highest standards and can be adapted to individual requirements thanks to its variety of designs.

● se:vision storage

se:vision storage is a high-quality storage space close to the workstation that can also be used as a free-standing side-board. The wide range of colours and materials allows for different styles – from inviting homely to stylish purism.

● se:vision desk & se:vision storage

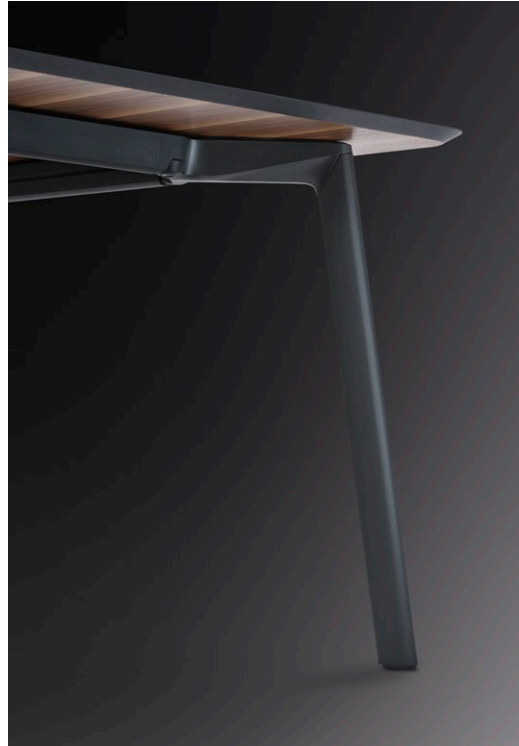

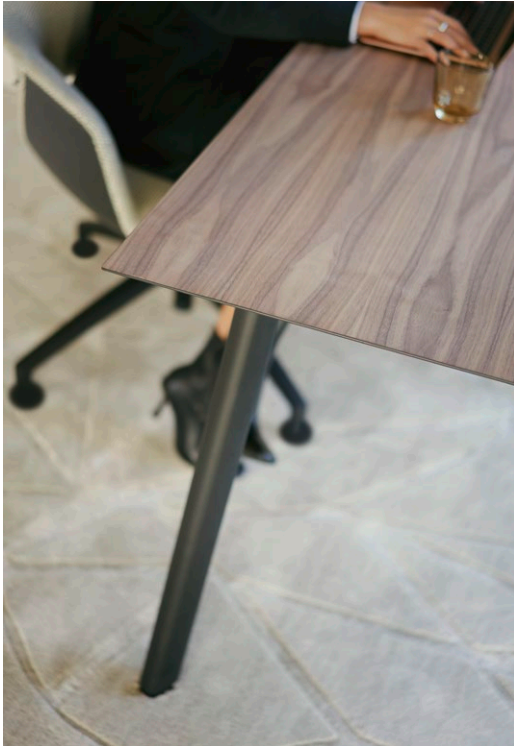

se:vision desk & se:vision storage is a premium desk with adjacent storage space that perfectly unites representativeness and individuality. The high degree of design freedom and a focus on quality and design make it ideal for management workstations.

se:vision desk

High-quality work desk for management

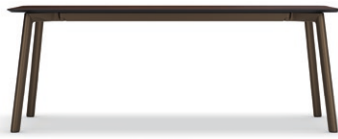

se:vision desk sets new standards for the executive workspace, combining functionality with a strong sense of value. A variety of designs offer a classic, elegant or a modern, inviting atmosphere, suitable for traditional management and new leadership. The coordinated details of the high-quality individual desk form a harmonious unit and special design elements and surfaces emphasise its premium credentials. se:vision desk stands for excellent materiality, attention to detail and a well thought-out design that radiates status and personality.

Advantages

- The table has a high-quality appearance and conveys value.
- The high-quality individual desk impresses with its purist design.
- The black shaped edges enhance the table adding a refined and delicate touch.

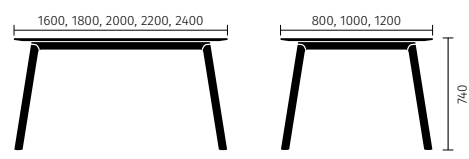

Features

- Given the continuous light edge that runs from the support beam via the node and the table leg to the floor, is a special feature. It enhances the desk and is the design feature of the se:vision desk.
- se:vision desk was designed as a high-quality desk for managers in medium and upper management and includes free-standing desks mounted on storage space.
- Monochrome colour design is possible for all available powder colours (table legs, support beams, cover caps and cable tray).
- Cable management is not visible (in the table leg or through the storage space).
- The desk fulfills high standards of design, aesthetics and quality.
- High-quality materials such as Fenix, linoleum and veneer are used.

Options/accessories

- The following table top design is available: 19 mm MDF board with black edge bevelled 30° in a variety of surface finishes.
- The following table top designs are available: 19 mm and 25 mm chipboard from the Sedus surface collection.
- Angular or rounded panel corners can be selected.
- Various table leg variants are available: Aluminium powder-coated, chrome-plated and veneer-coated.
- An elegant, foldable cable tray is available for cable management. A cable management set is available for routing the cables from the cable tray to the table node, which can be freely positioned within the support beam. The rest of the cable routing runs through the table leg.
- Optionally, the table can be selected with a fixed knee panel in melamine, veneer, soft touch, Fenix or veneers.
- A round, metal cable outlet with a brush profile in black or chrome can be selected.

se:vision storage

Elegant storage space for personal items

The se:vision storage element complements the workstation with its purist design and high-quality materials. It can be configured either as a free-standing sideboard or with a table attached and offers the ideal solution for organisation. Work materials can be stowed away quickly and practically, leaving the table free for spontaneous meetings. Individual items can be stored in elegant, optionally lockable pull-out drawers, combining security and elegance. With its well thought-out functionality, se:vision storage becomes an indispensable part of a premium quality workstation.

Advantages

- The storage space ensures a tidy working environment.
- se:vision storage has a high-quality appearance and conveys value.
- Various fronts or carcass fittings make a high degree of individual customisation possible.

Features

- The surfaces are coordinated with the se:vision desk.
- se:vision storage consists of the inner carcass, fronts, back panel and 13 mm thick cover panel and sides.
- The free-standing storage space consists of a maximum of four 600 mm widths.
- The back panel can be removed without tools to allow cables to be connected to the table.
- The pull-out consists of an elegant, straight metal frame in anthracite.
- The storage space fulfills high standards of design, aesthetics and quality.

Options/accessories

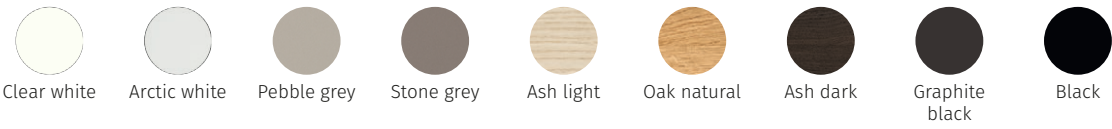

- Available in three widths for the elements under the table (matching the table depth: 800, 1000 and 1200 mm) and one width for the element next to the table (600 mm). The element under the table can be combined with one or two elements next to the table.
- Compartment layouts can be selected individually for each 600 mm unit. You can choose between one door, two or three pull-outs.
- For opening doors and drawers, you can choose either push-to-open doors or a handle.
- The door and/or drawers are lockable with a removable cylinder or RFID (battery-operated).
- Wide range of finishes to choose from: melamine, likewood, soft touch, linoleum, veneers and Fenix.
- An imitation leather inlay for the drawer is optionally available in either black or cognac.

se:vision desk & se:vision storage

Premium desk with adjacent storage space

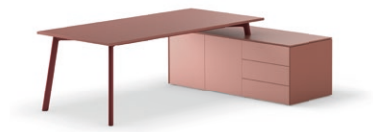

se:vision desk & se:vision storage combine both representativeness and individuality. With a harmonious appearance that perfectly integrates the table and storage space, they create a consistent, distinguished atmosphere. se:vision desk stands for individuality and value, while se:vision storage ensures organisation and flexible design options. Both products embody quality and durability, offering perfect adaptability to personal preferences, from minimalist to cosy.

Advantages

- Table and storage space combinations reflect the status of the user.
- The table with storage space can be individually designed or customised.
- se:vision desk & se:vision storage has a high-quality appearance and conveys value.

Features

- The table with storage space fulfills high standards of design, aesthetics and quality.
- High-quality materials such as Fenix, linoleum and veneer are used.
- The element under the table is always identical to the table depth (800, 1000, 1200 mm).
- se:vision desk & se:vision storage features simple plug & play cabling from the table through the storage compartment. The supply cable is guided under the back panel into the storage space.

Options/accessories

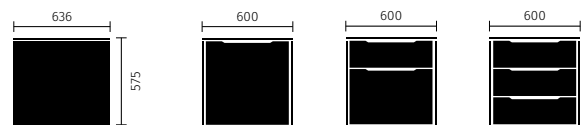

- Available in three widths for the elements under the table (matching the table depth: 800, 1000 and 1200 mm) and one width for the element next to the table (600 mm). The element under the table can be combined with one or two elements next to the table.
- An imitation leather inlay for the drawer is optionally available in either black or cognac.

se:vision is sustainable.

Social responsibility

- se:vision radiates value.
- se:vision contributes to identification with the company.

Economy

- The use of a valuable and durable quality product ensures planning certainty.

Ecology

- Produced using 100% green electricity.
- Advantages include the coordinated design options of se:vision desk & se:vision storage.
- Heat is created from the wood waste.
- Production is carried out in accordance with DIN EN ISO 14001 environmental management, DIN EN ISO 50001 energy management and DIN ISO 45001 occupational safety.

Sedus pursues a holistic approach to sustainability based on the three pillars of social, ecology and economy. The goal of becoming CO₂-neutral at its administrative and production sites by 2025 is actively supported through the development of innovative products and efficient production methods. Sedus is also committed to social projects, education and health through two foundations to which the company is majority-owned, thus making a positive contribution to society. With the “Sedustainable” initiative, Sedus designs holistic workplace solutions that both protect the planet and improve the quality of life of its employees. We really care.

We really care

Designed, engineered, crafted **in Germany. Since 1871.**
